

Do you want to power the energy transition?

Are you a team player; ready, able and willing to take on varied and complex challenges?

As one of the most innovative and fast-growing companies in the Netherlands, Elestor offers exciting and competitive career opportunities with plenty of scope for both personal and professional development. Elestor has a job opportunity for a:

Junior Chemist

32-40 hours per week
Arnhem, The Netherlands

Position

As Junior Chemist, you are eager to contribute to the green transition. You have the ambition to be a material expert in the future. Your responsibility is to actively initiate communication and activities in the electrolyte research of Elestor's flow battery technology under predefined performance & cost targets.

You report to the Team Leader R&D.

Profile

The ideal candidate has proven skills, knowledge of, and experience with the design of experiments and analytical thinking. You are independent to a certain degree and keep consulting with the senior chemist to come up with creative and innovative chemistry solutions.

You have strong communication skills with scientists and engineers of various disciplines internally, as well as with suppliers. You are excellent in stress and time management and can keep working in a safe and structured way, while under pressure to meet deadlines and cost targets.

Tasks and responsibilities

- Research and improve the electrolyte of Elestor's flow battery technology, under predefined performance & cost targets
 - Additive studies
 - Other chemistries than bromine
 - Material compatibility studies
- Document & communicate the relevant research outputs: protocol, report, presentation
- Transfer the technology into the other departments
- Generate intellectual properties related to the electrolyte technology
- Electrolyte safety compliancy

Education, skills and experience

- Educational degree in chemistry, MSc or PhD degree is an advantage
- Proven ability to introduce and implement creative, innovative solutions
- Strong communication skills in interdisciplinary teams and projects
- Hands-on, can-do mentality
- Passionate in clean energy, green hydrogen, and electrical energy storage technologies
- Fluent in English
- Experience with working in an international company or international experience
- An entrepreneurial mindset
- Experience with fuel cell, electrolyzer, or flow battery is an advantage

Our offer

Elestor offers an open, action-oriented and exciting working environment in a diverse and international team of highly skilled professionals. We have a flat management structure and offer many opportunities to excel and grow for the right candidates. Terms of employment are competitive and include participation in a Stock Appreciation Rights (SAR) program.

About Elestor

Elestor has been recognised as 1 of the 10 most innovative companies in the Netherlands by both the University of Amsterdam and the Dutch Chamber of Commerce. We are about to embark on an ultra-rapid growth path, fueled by multi-million euro investments as well as by agreements with clients strategically adopting our innovative storage technology in commercial settings.

Elestor's revolutionary low-cost flow battery systems have received several national and international awards in recognition of our ability to reduce the cost of storing electricity to an absolute minimum. Our batteries are made in accordance with a triple cost reduction strategy, using low cost and abundant active materials (hydrogen and bromine), a compact and easy to manufacture cell, and a patented pressurized system design.

Elestor has the technology to play a decisive role in realizing the energy transition towards a 100% clean electricity supply. The international market pull for Elestor's technology is concrete and very fast growing. Elestor's ambition is to build the Gigafactory equivalent for flow batteries.

Elestor is an equal opportunities employer: We believe diversity aids creativity and innovation, so whatever your race, colour, nationality, national or ethnic origin, sex, gender, marital status, religion, age, sexual orientation or disability, you are welcome to join our ranks. We actively promote inclusion and we abhor discrimination. We treat all our employees, contractors, workers, job applicants, suppliers, clients and everyone else with respect.
